DETAILED ACTION

1. The Request for Continued Examination (RCE) filed on 12 December 2005 under 37 CFR 1.53(d) based on parent Application No. 09/825,717 is acceptable and a RCE has been established. An action on the RCE follows.

2. The amendments filed on 12 December 2005, submitted with the filing of the RCE have been received and entered. Claims 1-2 and 4-21 as amended are pending in the application.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-2 and 4-14, drawn to hiding notification area icons from view after a predetermined interval of time and upon receipt of a user input indicating a desire to view the notification area icon, redisplaying the notification area icon in the notification area, classified in class 715, subclass 772.

II. Claims 15-21, drawn to providing user selectable hiding behaviors to be associated with notification items, classified in class 715, subclass 779.

4. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as consolidating the

displayed information in order to save screen space via monitoring the activity level of an item, hiding the notification icon associated with the item upon inactivity and redisplaying the icon upon user input indicating desire to view the icon. In the instant case, invention II has separate utility such as allowing users to control the hiding of notification items via allowing users to associate a set of user selectable hiding behaviors and characteristics with notification item. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
